RISK DISCLOSURE STATEMENTS

1. STRUCTURED WARRANTS

This statement is provided to you in accordance with the directive of the Rules of Bursa Malaysia Securities Berhad (BMSB).

The purpose of this statement is to inform you that the risk of loss in purchasing structured warrants can be substantial. You should therefore assess if the purchase of structured warrants is suitable for you in light of your financial circumstances. In deciding whether to purchase structured warrants, you should be aware of the following;

- The purchaser of a structured warrant is subject to the risk of losing the full purchase price of the structured warrant and all transaction costs;
- In order to realise any value from a structured warrant, it is necessary to sell the structured warrants or exercise the structured warrants on or before their expiry date;
- Under certain conditions, it may become difficult to sell the structured warrants;
- Upon exercise of the structured warrants, the issuer may settle its obligation via actual delivery of the underlying assets, in cash or a combination of both depending on the terms of the issue of the structured warrants;

RISK DISCLOSURE STATEMENTS (Continued)

- Placing of contingent orders, such as "stop loss" or "stop limit" orders, will not necessarily limit your losses to the intended amount. Market conditions may not make it possible to execute such order; and
- The high degree of leverage that is obtainable from structured warrants because of the small initial outlay can work against you as well as for you. The use of leverage can lead to large losses as well as gains.

This brief statement cannot disclose all the risks and other aspects of purchasing structured warrant. You should therefore carefully study the terms and conditions of any structured warrants before you decide to purchase. If you are in doubt in relation to any aspect of this statement or the terms of a structured warrant, you should consult your respective Dealer's Representative (DR) and/or the Broker.
